Summary

Innovative Full-Stack developer, I am currently in the second year of my engineering degree in computer science. I have been working in the domain of web development and creating projects in it. I have worked with my friends in a team for hackathons and my team-based skills have increased, as well as being highly organized and having clear communication skills makes it easier to work with me.

Skills

React, Node.js, Express.js, MongoDB, Redux, HTML, CSS, Javascript, Bootstrap, Git/GitHub, SASS, Firebase, Clear Communication, Highly Organized

Education

Dr. Akhilesh Das Gupta Institute of Technology | Delhi
B.Tech CSE Computer Science | 05/2025

G.D Salwan Public School | Delhi
High School

Projects

- [Shopping Website-](#) A fully functional Shopping website built using React, which has features like cart dropdown, checkout page, and also sign in features using firebase.
- [Hackathon App-](#) Hackathon app where you can create, update and delete Hackathons. Also you can search and filter through various hackathons. Built using MERN stack.
- [Portfolio Website-](#) My portfolio website which I made using react. Which has some amazing features like theme templates in which we have light and dark mode and also different color themes.
- [GitHub User Finder-](#) A GitHub API-based application that displays the information about the user on the search and also the repositories the user has made. Build using pure Javascript.
